

Cotton Must Have Potash

Potash is an essential plant food which must be added as a fertilizer or the soil will become exhausted, as is true of so many cotton fields.

We have books giving valuable details about fertilizers. We will send them free to any farmer who asks us for them.

Phrenology in Politics.

A Chicago phrenologist finds that President Roosevelt is constant, well balanced, positive, ambitious, influential, loyal, righteous, independent, self-reliant, aggressive, zealous, unaffected, conscientious, temperate and not a dreamer.

Mr. Hearst is active, strong, firm, self-confident, approving, combative, ambitious, energetic, secretive, reserved, quiet, not oratorical, theoretical, quick, fairly social, aristocratic.

Judge Parker is firm, not strenuous, not magnetic, secretive, ultra-conservative, esthetic, cautious, logical, broadminded, polite, polished, affable, critical, practical, home-loving and peaceable.

Mr. Bryan is combative, courageous, defiant, cool, honest, self-confident, unchangeable, ardent, emotional, sarcastic, incautious, home-loving, theoretical, plucky, recuperative, serene.

The phrenologist adds that Mr. Hearst is less logical than Mr. Bryan and less practical than Judge Parker, and while he belongs to the radical wing of the democratic party, is the exact antithesis of Mr. Bryan in personal characteristics.

In fact the outlines of character presented by our Chicago authority make Mr. Hearst and Mr. Roosevelt more alike than Bryan and Parker, Parker and Hearst, or Hearst and Bryan, but Bryan, Hearst and Roosevelt resemble each other more in some important respects than either of them resembles Parker.

American Financial Philanthropists.

A Frenchman, when asked in New York to other day what most impressed him in our commercial life, replied:

"Ah! I am most impressed by the great anxiety of your financiers to take the public into partnership in what they advertise as golden opportunities. Your financiers are all philanthropists. In Paris when we have something real good we keep it to ourselves."

But the money question will figure in the campaign whatever the platform says. We early learned that "money makes the mare go." And other things more when money is behind them.

Florida enjoys the unenviable reputation of being the only state in the Union which has no exhibit at the World's Fair.—New York Packer.

Paris celebrated its national holiday with a big review, public balls, free performances in the theaters, music, decorations, parades, picnics, and so on.

It is generally concluded that the Times Union, through cartoonist Taylor, was first to discover Parker. It is the "original Parker newspaper."

Next year Ocala will have an electric day service and electric fans will make business and living more delightful.

The Tampa Tribune is infusing a good deal of its old time brightness into its editorial columns.

The perfect woman is said to reside in Japan. She is required to obey both her husband and her parents.

Ocala now has ten automobiles and some of them are very handsome ones.

Florida next orange crop is put down at \$3,500,000 boxes.

EVERYTHING
MUST GO!

THE BOSTON STORE.

EVERYTHING
WILL GO!

MID-SUMMER CLEARANCE SALE.

It's stock taking time. We must close out all odds and ends. We must lower our stock. Hence, we will cut prices in half. This is a chance to buy up-to-date merchandise at half price. This is the opportunity you have been looking for. Below we give you a few hints of what we will offer in this sale.

Everything in our Dress Goods Department has been cut and sliced so as to sell at a very small percent of its value. On one of our counters we have about 500 remnants of Dress and Dry Goods which must be sold. We have about 50 dozen lace clock work hose that we sold at 25c. which we are offering in this sale at 15c.

Ladies Ready Made Garments.

We have everything that ladies wear, such as suits, skirts, waists, wrappers, gowns, chemise, drawers, corsets, corset covers, etc., etc. We are offering in this sale 50 ladies shirtwaist suits that sold at \$4 to \$6 and made up of the very best washable materials for \$2.50.

Men's Clothing and Furnishings.

Don't forget that we carry a large stock in this line and all is up-to-date. We want our entire summer goods closed out before our buyers go north, which will be next month.

SHOES

THIS IS YOUR OPPORTUNITY!

M. HANDELSMAN

GEORGIA LEGISLATURE.

Tax on the Dispensaries is Made Ad Valorem.

Atlanta, July 21.—The question of the taxation of dispensaries was settled in pretty short order yesterday morning, when the house took up the general tax act.

The previous question was called, further debate was shut off and a vote on the various amendments was begun.

As a result the house restored the former plan of levying upon dispensaries an ad valorem tax in addition to the \$200 specific tax, which is levied upon all liquor dealers.

The house promptly and effectually sat down upon all the proposed special orders but one, recommended by the committee on rules.

With the exception of what is known as the boll weevil bill, every one of the 15 or 20 proposed special orders lost out. These last included the bill to increase the salaries of judges of the superior courts and others of similar importance.

The boll weevil bill provides for an appropriation of \$15,000 to the state department of entomology for the purpose of fighting the introduction into the state of the Mexican boll weevil, and for the purpose of keeping in check other plant and fruit pests in the state. This bill was made the special order for next Tuesday, July 26.

Hon. Augustus DuPont, of DuPont, was sworn in Tuesday morning as the representative from Clinch county, succeeding the late Hon. R. B. Johnson, who died just before the opening of the present session.

An effort to pass the resolution fixing the bill requiring railroad companies to equip lumber cars with standards, as a special order one day next week, failed, after adverse action on the resolution had been reconsidered.

In The Senate.

The senate held a busy session yesterday and considerable business of importance was transacted.

There was quite a lively debate between Mr. McMichael, of the twenty-fourth, and Mr. Middlebrooks, of the twenty-seventh, relative to a resolution to pay a pension to Dr. J. J. W. Glenn, of Rockdale county. Dr. Glenn was not technically entitled to a pension under the law, but the house had passed a resolution allowing the pension to be paid. The measure had been in the senate once before and was defeated. Yesterday it was reconsidered on motion of Mr. Middlebrooks, of the twenty-seventh.

Mr. McMichael, of the twenty-fourth, said he was opposed to the paying of the pension because it was illegal.

By a unanimous vote of the senate the Australian ballot bill was made a special order for next Tuesday.

Senators Hopkins and Coma were appointed on the joint committee to codify the game laws of the state.

The joint committee of the house and senate on state sanitarium set that conditions at the state institution for the insane is well high perfect. The committee reiterates and reaffirms its report of 1902 and 1903. The committee declares that the moneys appropriated by the state are disbursed in the best possible manner and that the records are intelligently and honestly kept. A tribute is paid the board of trustees and the officers upon whom devolve the responsibility of the institution.

SHAFT TO DAN EMMETT.

Alabama Man First to Honor Author of "Dixie."

Columbus, Ohio, July 21.—The movement of the local Elks to secure funds for a monument to Dan Emmett, the aged minstrel author of "Dixie," who has just died, received its first response in a letter from M. Watkins of Faunsdale, Ala., who accompanied his contribution with a letter expressing the hope that the "God may lay as light upon his bosom as his song has made the heart of many a weary and footsore soldier in 'Dixie.'"

More Teeth of Mastodon Found.

Columbus, Ga., July 21.—Two other mastodon teeth have been found in the creek bed near Hurtahore, Ala., where a huge tooth of one of that species was found a few days ago by a seining party. The teeth weighed about 2½ pounds each; are over 1 inches long and about 4 inches broad. The work of excavation will be continued in the hope of finding the complete skeleton of a mastodon. C. E. Borom, of Hurtahore, and Mr. Dickinson, his brother-in-law, are in charge of the matter.

Operatives Wages Cut.

Manchester, N. H., July 21.—Notices have been posted in all three of the Suncock Cotton Mills announcing a cut of 12½ per cent in wages of all operatives, to take effect July 25. The cut is due to a surplus in manufactured products. About 1,500 operatives will be affected.

Topeka, Kans., July 21.—The roll for the Topeka pension agency, the largest in the United States, shows a decrease of only nine pensions for the year just ended. The list contains 115,620 pensioners who drew \$16,294, 221 last year. During the year 4,220 pensioners died. Most of the veterans who die leave widows.
